I still have...a problem with that name, Mary Jane. For so long that name was associated with things that, well, I don't really want to think about.

I know I can't work my way in from that name, and that costume, to find Peter. I'll have to work my way out, from Peter, to that name. He's who I care about, so sooner or later, I know I'll come to care about...the other half of him.

I know what you mean. It took a long time for me to get past that part of it.

So I always make sure to remember that the face on the other side of that mask is the one I would wake up to every morning, that I would kiss every night.

It's been slow since we got back, we're still sort of finding each other, but --

Sorry, May -- Hello? -- the most amazing thing, MJ --

Peter? Peter, slow down. What's all that noise?

The key five notes from Close Encounters. We don't understand it either, but it seems to make her happy.

Yeah, it does. I mean, he didn't say he was the one who gave the order to have those guys killed, but then again, he wouldn't.

So what're you going to do about it?

What I promised I'd do.

Digger doesn't care who gets in the way of his vendetta against Forelli. He's already hurt innocent bystanders, killed people...by staying close to Forelli, being his bodyguard, I have a chance to stop this thing.

And then what?

I don't know. I don't know if this thing can be stopped, or killed. And even if that's possible, there's still the issue of who and what Forelli is. He's probably hurt just as many people as Digger, maybe more.

I mean, it's ironic, you know? Digger shows up, and because he's tearing up the place, I can fight him, stop him. But I can't touch Forelli because what he does, he does in secret, behind closed doors. Subtly. Quietly. With an army of lawyers to back him up. It's just --

You're tired.

Yeah... I guess I am.

That's it, next time I'm definitely sending flowers instead.

You want a piece of advice? Steer clear of Forelli. Let us do what we have to do. It's none of your business.

Sorry --

OOOF!

I was right....

...he's not Hulk strong, but he's pretty close, thanks to the gamma rays. Best to keep this hit-and-run until I figure out a way to stop him. If he gets a good grip, I'm in trouble.
